

Water Meter Connection Information - Water Meter Application Form

PLEASE NOTE – IT IS A CRIMINAL OFFENCE TO CONNECT TO THE BLAZER WATER SYSTEM WITHOUT HAVING A WATER METER INSTALLED. VIOLATORS CAN BE FINED UP TO \$5,000.00 & BACK CHARGED FOR WATER AND/OR PROSECUTED.

When do you submit your Meter Application Form? The commencement of your construction is when the water meter application is to be submitted.

When do you request and install a meter? Meters are to be installed at Heat On/Lock up which in residential construction equates to walls, windows and doors in place so the structure can be heated and secured.

Blazer Water Systems Ltd. will provide home builders in Watermark with the following as a kit for a cost of \$825.00 + GST:

One 3/4" water meter, One 3/4" threaded meter connection set, One 3/4" diameter pressure reducing valve (PRV) with a range of 25-75 psi, the ideal setting is 65 psi.

These kits need to be picked up by the home under construction by requesting an appointment after submitting the attached water meter application to Blazer Water Systems Ltd. via email at info@blazerwatersystemsltd.ca.

The meter installation kit can't be picked up until the home builder has completed the attached Water Meter Application Form.

Once the builder has completed the installation of the PRV & meter:

- The home builder is required to contact Blazer Water Systems Ltd. to arrange an inspection of the installation within 7 days of picking up the meter. Anything after 7 days will be considered as illegal use of water.
- If there are errors in the installation the homeowner/builder will be responsible for the remediation of those defects and a re-inspection will be required. Additional fees will be charged for the re-inspection.
- Once Blazer has verified that the installation is satisfactory, usage billing will then begin.
- The home builder is responsible for chlorinating and ensuring the suitability of the piping inside the property lines for use as a potable water supply system to the house residents.
- The first bill to the home builder will include the amount of **\$825.00** plus GST to cover the cost of the meter installation kit, the inspection charges and the account setup charge. The home builder will also be responsible for payment of water usage from the date of the meter installation until the homeowner takes occupancy. All water billing will then be directed to the homeowner after possession.

In summary, the steps in the process are:

1. Contact Blazer Water Systems Ltd. by email (preferred), phone or fax.
2. When construction commences, submit the meter application form to Blazer.
3. When you reach heat on/lock up stage request and arrange pick up of the water meter.
4. Home Builder's to have their plumber install the meter and PRV. (PRV must be before the meter no exceptions)
5. Contact Blazer Water Systems Ltd. within 7 days of meter pick up so we can arrange an inspection.
6. Complete any remedial work required by Blazer following the first inspection and have re-inspected.

Irrigation Zoning Note:

The homeowner/builder should note that, when designing the zones in the irrigation systems within the property, the maximum demand for the irrigation system at any one time should be limited to not more than 18 usg/pm.

Curb Stop Note:

During construction it is the builder's responsibility to ensure the curb stop is ACCESSIBLE AT ALL TIMES, if it is not and work has to be done to reach the curb stop extra charges will apply. Homeowners are responsible for the curb stop accessibility after occupancy.

The first bill from Blazer Water Systems Ltd. will include the meter cost of \$825.00 + GST and will be sent to the builder. The builder will also be responsible for payment of water usage from the date of the meter installation until the homeowner takes occupancy. REMEMBER, it is the builder's responsibility to notify Blazer Water Systems Ltd. of the Possession Date and to provide the necessary contact information for the homeowner in order to allow Blazer to begin billing the homeowner.

I will be responsible for all costs associated with installing a functional and accurate water meter, as supplied by Blazer Water Systems Ltd., which will measure the amount of potable water being supplied to the property. I acknowledge that Blazer will inspect the installed meter, and will not supply potable water to the property unless and until the meter and its installation are satisfactory to Blazer. For greater clarity, I acknowledge that at the time of execution of this Agreement the fee for Blazer to supply the water meter, meter connection kit, pressure reducing valve and to inspect the installed meter is \$825.00 + GST.

I AM AWARE THAT IT IS A CRIMINAL OFFENCE TO CONNECT TO THE BLAZER WATER SYSTEM WITHOUT HAVING A WATER METER INSTALLED AND CAN BE FINED UP TO \$5,000.00 & BACK CHARGED FOR WATER AND/OR PROSECUTED.
